Director-Professor & Head,
P.G. Department of Medicine,
S. N. Medical College,
Agra.**

LETTER FROM ORGANIZING SECRETARY

It was my intense desire to see all my seniors and juniors together in our department. When I took over as Director-Professor & Head of the Department in 2007, I thought of it but due to paucity of faculty members in the department, I could not make it.

Now there are 16 faculty members & when I told them my idea all were very keen to do this meet. The idea was many folds.

- Whenever I met my seniors and juniors in conferences or at other place, everybody was anxious to know about SNMC. So I thought to give them an opportunity to see their old Alma mater. Let me admit frankly I could not make very drastic changes in the department. However occupancy of the patients which came down few years back went up ranging (80 to 110%) and teaching of students were geared up. Our graduates are started being selected in P.G. in more numbers and lastly our M.D. students started being selected in DM. This year we had five selections in D.M.
- To know about your batch mates, juniors, seniors, what they are doing.
- I would like to know from all -- what more could be added in P.G. curriculum to improve the things. What you faced after going out of this college and what were the lacunae. What more could be taught or trained or imparted during PG course? After getting your feedback and valuable suggestions, I would like to incorporate those things in teaching programme.
- Many senior people living in other countries or premier institutions and in different cities could help and guide the juniors from SNMC, Agra.

In fact I got many of our students being helped by the seniors at different places. In this effort we are making a detailed directory and placing them all on the face book of SNMC Medicine and also on SNMC website to help the students to know about the seniors and getting their help.

Lastly I faced many times small problems in the department – Yes, I am talking about pity matters as it takes a long course in getting the things done. So why not we can help our department as IITians do.

I am extremely grateful to Dr. Ram Singh, Dr. D.N. Gupta, Dr. M.M. Singh, Dr. S.P. Goyal, Dr. Arun Kumar, Dr. Saurabh Gupta of Ghaziabad & Dr. Anil Gupta of Bareilly for their help to trace out many ex-students of this college. I am confident that you will spare some of your valuable time to meet your seniors and juniors. Hope to see you all on 4th and 5th February, 2012 at Agra.

With kind regards to seniors and best wishes to juniors.

Arun Kumar Gupta
(A.K. GUPTA)
